

NEW
ROCK HARD FIN™
25^{mm}
1in

Fully tempered blade sleeve with multi-function fin end ideal for opening and prying

SUPER HARD TIP™
 The extended blade sleeve holds blade sturdily, preventing blade breakage.

Grip form
 The new handle is designed specifically for comfort and ease of use.

In-handle blade storage
 Pre-loaded with two spare blades located in the convenient in-handle storage compartment.

AUTO LOCK DFC670N-R1

Razer Black Blade™
25^{mm}
1in

DFC670N-R1 DFC671N-R1

A blade-sliding mechanism built for precision
 Slider movements can be felt in hand when moving back and forward. Compared to existing slider feature, this tool gives more precise feeling from the grip to hand.

Available in **DIAL LOCK**
DIAL LOCK DFC671N-R1

Tempered blade sleeve with fin end
 At 1.0mm thick, the hardness of this sleeve is more than double that of existing stainless steel blade sleeves. This sleeve's iconic FIN design is not only durable, it offers additional functionality in opening and prying.

ROCK HARD Series

THE TAJIMA DIFFERENCE!

Strategically designed blades combining the best intempering, material, and sharpening

Only SK-120 Premium Grade Steel

The purest grade of steel ensures the strongest-possible core and results in a more accurately tooled and sharpened blade.

Precise, Multi-Step Sharpening

Optimized cutting edge geometry and advanced honing techniques results in consistent, superior cutting performance.

Japanese-Style Tempering

A centuries-old process of heat-treating and hardening the steel to further maximize blade strength and cutting edge life.

Optimized cutting edges
To ensure the best cutting performance for specific types of material

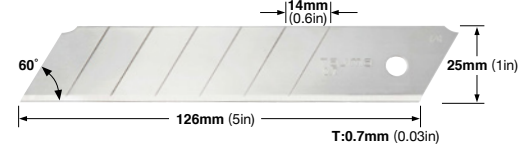

HARD™ ENDURA-BLADE™
•Sturdy and dependable
•For general purpose scoring and cutting
•Ideal for thick materials like drywall and wood

SHARP™ RAZAR BLACK BLADE™
•Ultra-fine cuts
•For the precision cutting of fine materials
•Ideal for thin materials like film and paper
